

NAPC: Networked ASEAN Peat Swamp Forest Communities

Introduction :

IoT-based solution for **peat swamp** forest monitoring, targeting the environmental and agricultural issues in Malaysia, Vietnam, Indonesia and Brunei.

Objectives 1) Technological innovation: to deploy, analyse and disseminate information using an IoT-based peat swamp forest monitoring system, especially on sustainability,

2) Social innovation: to conduct social programs for peat swamp forest communities such as educational and entrepreneurship events related to the peat swamp forest.

Project Members :

No.	Name	Affiliation
1	Assoc. Prof. Ir. Dr. Aduwati Sali	UPM, Malaysia
2	Assoc. Prof. Dr. Mohd. Fadlee A. Rasid	UPM, Malaysia
3	Dr Sharifah Mumtazah	UPM, Malaysia
4	Dr Asem Salah	UPM, Malaysia
5	Mr. Azizi Mohd Ali	UPM, Malaysia
6	Prof. Dr. Ahmad Ainuddin	UPM, Malaysia
7	Dr. Sheriza Mohd Razali	UPM, Malaysia
8	Assoc. Prof. Dr. Bao Bao Vo Nguyen Quoc	PTIT, Vietnam
9	Ir. Dr. Hafizal Mohamad	MIMOS, Malaysia
10	Ir. Dr. Nordin Ramli	MIMOS, Malaysia
11	Dr. Lailan Saufina	IPB, Indonesia
12	Dr. Wida Susanty Haji Suhaili	UTB, Brunei
13	Nobuyuki Asai	NICT Asia Center, Thailand
